

# TANKLINK

## CELLULAR MONITORING SOLUTIONS

### PROPHET

Host UpLink

- ▶ Prophet GSM Host, 4-20mA UpLink.
- ▶ Recommended for all markets, for any customer-provided standard 4-20 level gauge.

### PROPHET

GSM Host Petroleum

- ▶ Prophet GSM Host with polyurethane cable and differential pressure sensor.
- ▶ Recommended for Fuels & Lubes.

### PROPHET

GSM Host Chemical

- ▶ Prophet GSM Host, Teflon cable and differential pressure sensor with temperature.
- ▶ Recommended for Chemicals. Call for compatibility.

### PROPHET

GSM Host Totes

- ▶ Prophet GSM Host with 2" butress fitting, 55" polyurethane cable and differential pressure sensor with temperature.
- ▶ Recommended for DEF totes.

### PROPHET

GSM Host Sonic

- ▶ Prophet GSM Host, Short Range (4-64 or 6-168) with ultrasonic sensor.
- ▶ Recommended for Chemicals, Fuels & Lubes.

### PROPHET

GSM Host Mag Mount

- ▶ GSM Host with mag mount and ultrasonic sensor (Hall effect sensor assembly sold separately).
- ▶ Recommended for Propane and Gasoline.

### I-SAFE PROPHET

I-Safe 7000 Series

- ▶ Approved for use in flammable liquids and demanding environments.
- ▶ Recommended for hazardous/explosive Chemicals, Fuels & Lubes, where IS is required.

### PROPHET

GSM UST Plus

- ▶ Prophet GSM UST Plus with serial cable.
- ▶ Recommended for use in Underground Storage Tank monitoring.

# TANKLINK

## CELLULAR MONITORING SOLUTIONS

### PROPHET FORESIGHT

GSM/CDMA Foresight

- ▶ Remote inventory monitoring solution, 900MHz, WLAN, 4 inputs, local display.
- ▶ Recommended for all multi-tank, co-located vessel monitoring, wired or wireless.

### PROPHET

Standard Client

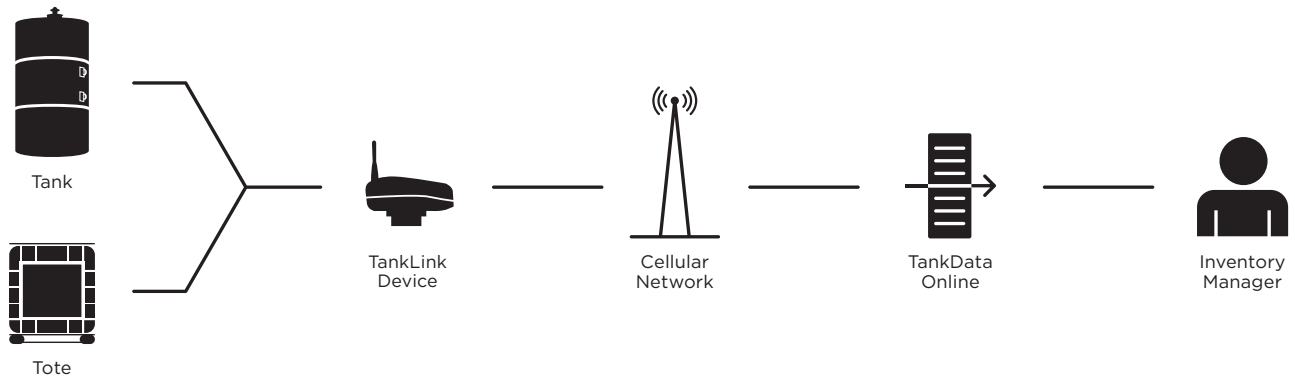

- ▶ Host models are available as Clients. Clients are compatible with Prophet Host and Prophet Foresight.
- ▶ Recommended as a less costly option for multi-tank monitoring in many cases.

### HALL EFFECT ASSEMBLY

Sensor and Dial Face

- ▶ Hall effect sensor assembly for 1", 4" & 8" dial faces.
- ▶ Recommended as part of Propane monitoring system, with Prophet GSM Host Mag Mount.

### TankLink Cellular Monitoring

- Locate tanks/totes via GPS.
- Access data via PC, laptop Smartphone, tablet.
- Export delivery/routing data to Excel or your routing package.
- Track delivery efficiency and calculate potential savings.
- Proactively service your customers.

### TankData Online

Our web portal provides the critical information you need to better manage your entire supply-chain and make the most efficient replenishment & delivery decisions. Get alerts and notifications. Access level and product temperature, usage history and precise tank location.

### The TankLink Difference

- Sole-source solution for all hardware, software and data – we assemble the total package.
- Direct customer service – no third parties.
- Flat-rate tiered billing – no hidden surprises.
